GROWTH

A Journal Devoted to Problems of Normal and Abnormal Growth
Established in 1937

VOLUME XLVI
Pages 1-403

GROWTH PUBLISHING CO., INC.
INCORPORATED 1971
A NON-PROFIT CORPORATION
FLORIDA

1982

Author Index, Vol. XLVI, 1982

Subject Index, Vol. XLVI, 1982

A.I.D.S. 331
Acquired immunodeficiency syndrome 331
Age
- cow weight vs. pelvic size 12
- eye lens as indicator 22
- rat heart vascularity 275

Allometry
- bird 83, 183, 367
- Chicken brain 183
- mouse 53
- multivariate analysis 1
- organ '*Corvus*' 367
- organ '*Turdus*' 367
- quail 88
- skeletal growth 53

Amino acid
- fetal metabolism 209
- kinetics 209

Angus steer, growth 388
Anthropometry, children 220
Asymmetry
- estimation methods 337
- fish meristic features 337
- fluctuating 337
- skeletal 100

Bacteria
- acid-fast 113, 331
- cell-wall deficient 113, 331
- L-forms 113

Page

Bird
(see also 'chicken,' *'Corvus,'* 'quail,' *'Turdus'*)
allometric growth ... 367
organ development ... 367
Birth
pigs ... 22
season vs. weight (pigs) ... 22
Blood, hemoglobin ... 247
Blue tilapia
cultural conditions ... 238
palatability ... 238
Body weight, children ... 135
Body
cell mass ... 306
fat ... 60, 74, 163, 171
fat (estimation methods) ... 306
fat deposition ... 150
mass (total water content) ... 306
measurements (cows) ... 12
protein ... 60, 74
Bone
(see also 'Skeletal')
hand-wrist ... 100
loss ... 100
Brain
allometry ... 183
chicken ... 183
nutrition ... 183
rat (post-radiation development) ... 355
Calf, birth weights ... 12
Catch-up growth, chickens ... 26
Cell mass, growing Guinea pig ... 306
Chicken
brain ... 183
catch-up growth ... 26
feed efficiency ... 26
growth curves ... 259
growth hormone levels ... 283
hormone level vs. genetics ... 283
lipogenesis ... 163, 171
maintenance requirements ... 26
nutrient partition in brain parts ... 183
obesity vs. lean ... 163, 171
pre-natal ... 26
prolactin levels ... 283
Rhode Island Red ... 26
South. Reg. Genetics strain ... 283
temperature ... 26
Child
anthropometry ... 220
growth ... 220
height ... 135
Nigeria ... 220
nutritional survey ... 135
racial stocks (U.S.) ... 135
socio-economic factors ... 135
Child growth
Nigeria ... 220
parental occupation ... 220
Corvus monedula jackdaw ... 367
Coturnix C. Japonica ... 88
Cow
(see also 'steer')
Angus ... 12, 388
beef ... 12
body measurements ... 12
Charolais ... 12
pelvic size vs. weight ... 12
Polled Hereford ... 12
weight vs. pelvic size ... 12
DNA synthesis ... 126

Dermestes maculatus technique 53
Diet restriction
  growth in mice 343
  mouse reproduction 343
  protein 343, 388
  steers 388
Diptera oocytes 46
Dorset sheep, fetus 209
Duroc Landrace 189
Endocrines
  chicken 283
  growth (somatotropin) 283, 296
  hamster pineal 150
  hormone levels chicken 283
  pineal, hamster photoperiod 150
  pituitary, rat 296
  thiouracil 296
  thyroid, rat prenatal 296
Energy, partition 60, 74
Epithelium follicular 46
Equations
  differential models 1
  Lotka-Volterra 1
Estimation methods for fat 306
Estrogen, skeletal 100
Ethanol
  development aversion 322
  transgenerational drift 322
Eye lens
  age indicator (pigs) 22
  growth (pigs) 22
  weight in pigs 22
Fat
  body mass (Guinea pig) 306
  steer 60, 388
Feed efficiency
  chickens 26
  temperature 26
Fetus
  amino acid 209
  effects of maternal starvation 199
  metabolism 209
  organ size from starved sows 199
Fish
  (see also 'Poeciliopsis lucida')
  blue tilapia 238
Food consumption
  photoperiod 150
  weight gain 150
Food efficiency
  mice 343
  steer 388
Gestational starvation, fetal effects 199
Glucose, swine 189
Golden hamster
  food consumption 150
  photoperiod 150
  pineal gland 150
Growth
  "catch-up" 26
  specific rates 88
Growth curves
  chicken 259
  comparative review 259
Growth rate, high vs. low 367
Guinea pig
  body components 306
  estimated vs. actual fat 306
  nitrogen content 306
  potassium content 306
Hamster, Golden 150
